Green Infrastructure Baseline Inventory: Data collection launch

January 8, 2021

Joemy Buschur
MPC Research Assistant
GIBI Development

Phase 1
- Literature review
- Advisory Committee meetings
- Interviews with municipal actors
- CSC + Work Group meetings

Beta Test
- Meet with engineers to test and refine data collection methods

Phase 2
- Convene data providers
- Collect existing data
- Contact main Calumet-region engineering firms
- Conduct direct outreach, aka “fill in the gaps”
- Build the dataset
Stormwater Management

Building resilient communities by improving stormwater planning and investments

Green Infrastructure Baseline Inventory
The Metropolitan Planning Council, in coordination with the Calumet Stormwater Collaborative, are currently developing the Green Infrastructure Baseline Inventory, a comprehensive, publicly available dataset documenting existing engineered green stormwater infrastructure in the Calumet region of Illinois. This data will serve as an invaluable public resource to inform decisions and strategic planning to improve stormwater management across the Calumet region. The GIBI will be a free and accessible public resource to document where green stormwater infrastructure already exists in the Calumet region and how it is performing to inform future stormwater planning decisions.

Timeline
Data documenting existing green stormwater infrastructure in the Calumet is being gathered now through June 2021 and the data set will be live and ready for use at the end of 2021.

Contribute a Project to the Inventory
Did you play a role in the development or construction of green stormwater infrastructure in the Calumet region of Illinois? Please contribute to the inventory! Add information to the "Data" sheet in this workbook, using one row per green infrastructure installation. If a location has multiple GI installations, please use an additional row for each. When complete, please submit completed forms to Justin Keller at jkeller@metroplanning.org.

For More Information, Assistance and Alternative Submission Options
Please contact Justin Keller at jkeller@metroplanning.org or by phone at (312) 863-6033. Staff at the Metropolitan Planning Council is available to assist you in the submission process and to answer any questions you may have. More information is available at: www.metroplanning.org/GIBI
## GIBI Formatted Spreadsheet

GIBI Current Tasks & Next Steps

• Collect existing data
• Contact main Calumet-region engineering firms
• Conduct direct outreach, aka “fill in the gaps”
• Build the dataset
Thank you!
