Change in Total Population

Produced by RW Ventures, LLC

From 2000-2008, average household income in Englewood increased by 20%, as compared to the overall Chicago population's increase of 32%. In fact, with a current household income of \$36,422, the average Englewood household earns only 50% of that earned in Chicago. Currently, 52% of households in Englewood have an income less than \$25,000, versus only 25% of households in the city of Chicago.

Average Household Income

Produced by RW Ventures, LLC

This disparity is expected to continue over the next five years and is reflected in Englewood's poverty rate of 44%, which is substantially higher than the overall Chicago poverty rate of 20%. The percentage of households in Englewood with incomes between \$25,000 and \$50,000, and \$50,000 and \$75,000 remained relatively flat between 2000 and 2008, with current percentages at 26% and 11%, respectively. The percentage of Englewood households with incomes between \$75,000 and \$100,000, and over \$100,000 is currently 6.9% and 4%, respectively, versus 16.8% and 16.2% in the city. Substantial gains in these higher income levels are not projected in the near future.
