COURAGEOUS SPACES

Courageous spaces are a set of ground rules to guide the conversations and discussions to come. These spaces are inclusive to all races, sexes, genders, abilities, immigration status, and lived experiences.

We seek to create a space that allows people to express themselves, challenge each other in a positive way, and learn from each other.

We ask that participants enter these conversations openly—focusing not only on your perspective as a member of the organization you are representing, but also as an individual. While we hope to hear from you during the sessions on the type of mindset you think is needed for these meetings, below are some ground rules that we believe are important to help set the stage.

- **Agree to a common goal**
- **Acknowledge privilege and power dynamics**
- **Listen and be open to understand ideas and truths that are not yours**

We look forward to working together to further define what a courageous space means to you.
